

REMARKS

Amendments to the Specification

Page 1 of the specification is amended to identify applications to which priority is claimed.

Discussion of New Claims

Original claims 1-37 are canceled. New claims 38-46 are added. Support for the new claims 38-46 is found in the application as originally filed, including at page 6, lines 6-13, wherein it is described that use of an agent capable of neutralizing or down regulating immunosuppressive factors results in synergistic enhancement of cytotoxic T lymphocyte response induced by a vaccine; at page 4, lines 2-6, wherein use of agents capable of neutralizing, antagonizing, down regulating, or blocking TGF β activity is described; at page 7, line 14, where TGF β is identified as a potent immunosuppressant; at page 4, lines 20-24, and at page 9, line 8, through page 10, line 2, wherein various TGF β antagonists are described, including anti-TGF β antibodies, TGF β receptor Fc-fusion proteins, TGF β analogs, and TGF β binding polypeptides such as thrombospondin peptide; at page 15, lines 10-13, wherein it is described that the disclosed methods are useful for treatment of diseases and conditions in which TGF β has an adverse effect on the host's ability to elicit a therapeutic CTL response, such as cancers, neoplastic growths, viral infections, and parasitic infections, at page 13, line 3, through page 14, line 21, wherein various disease-related and infection-related antigens are identified; and at page 4, lines 8-20, wherein it a CTL-inducing composition for use in conjunction with an antagonist of an immunosuppressive factor is described. No new matter is added. Entry of new claims 37-45 is respectfully requested.

Conclusion

If any questions arise regarding the foregoing amendments, which the examiner feels may be best resolved through a personal or telephone interview, he is kindly requested to contact the undersigned attorney at the telephone number listed below.

Respectfully submitted,

PILLSBURY WINTHROP LLP
